Sarasota County School District Mission Statement

The School District of Sarasota County prepares students to achieve the highest learning standards by engaging a high-quality staff, involving parents, and a supportive community.

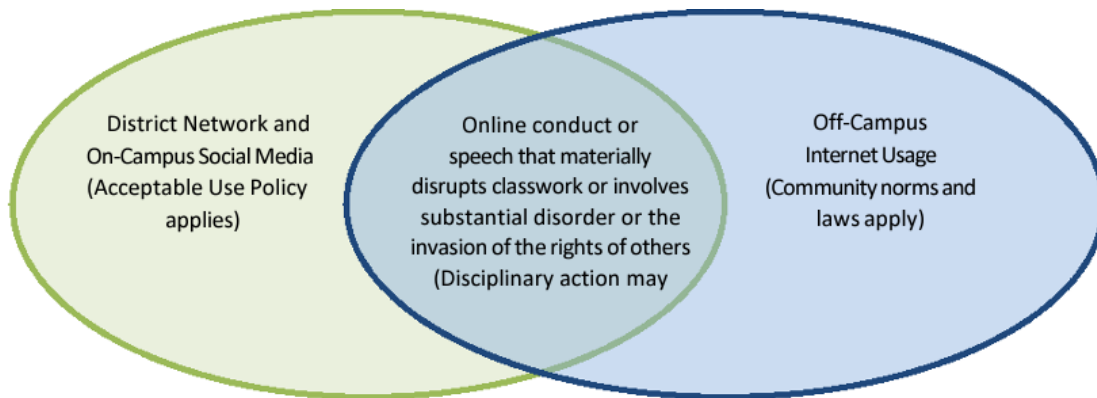

SCOPE OF THE SCHOOL DISTRICT

Sarasota County’s School Board policy [2.10](#) establishes the scope of the school board.

1. The School Board is the governing body of the district and is responsible for the control, operation, and supervision of all public schools in the county pursuant to the provisions and minimum standards prescribed by Florida Statutes and State Board of Education rules and may exercise any power except as expressly prohibited by the State Constitution or general law.
2. The district school system is part of the state system of public education and includes all public schools, classes, and courses of instruction and all services and activities directly related to education in the district which are under the district school officials’ directions.

In addition, per [School Board Policy 5.381](#) the use of personal technology or online communication may also violate the District’s Acceptable Use Policy or Code of Student Conduct if the online conduct of the student or the student speech materially disrupts the classroom or involves substantial disorder or the invasion of the rights of others. This is so whether it occurs on or off campus.

In addition, with respect to bullying and/or harassment, as evident in [School Board Policy 2.70](#), the school district, “may also address discrimination and harassment that occurs outside of a school-sponsored program or activity but has continuing adverse effects within those programs or activities, including by providing supportive measures to address the safety of students and employees.”

Use of a wireless communications device includes the possibility of the imposition of disciplinary action by the school or criminal penalties if the device is used in a criminal act. A student may possess a wireless communications device while the student is on school property or in attendance at a school function; however, a student may not use a wireless communications device during instructional time, except when expressly directed by a teacher solely for educational purposes. CODE OF STUDENT CONDUCT

INTRODUCTION

The School District of Sarasota County is committed to maintaining a safe, secure, orderly and respectful school environment. All are expected to conduct themselves respectfully and to support the mission of maintaining a safe and respectful school environment that is conducive to learning and promotes an effective learning environment. Students are expected to behave in a manner that does not disrupt their own learning or that of their classmates. School and district leaders take this responsibility very seriously, and through partnership with parents/guardians will ensure that the student misbehavior is developed and managed appropriately. The progressive discipline structure of this Code of Conduct allows for opportunities to intervene with students who struggle with maintaining desirable behaviors early in the process and hold students accountable for their actions should the behavior become chronic and/or more aggressive.

To assist students, parents, guardians, administrators, and school staff with maintaining an effective learning environment, per state requirements, outlined in [F.S. 1006.07](#), the School District of Sarasota County adopted the Code of Student Conduct.

Although it is the responsibility of both the student and the parent/guardian to know the rules of the Code of Student Conduct, [per Sarasota County School Board policy 5.30](#), “all students enrolled in school shall be subject to the laws, regulations of the State Board of Education, the rules and policies of the School Board and the Code of Student Conduct and shall be under the control and direction of the principal or designee during the time they are transported to or from school at public expense, during the time they are attending school or a school-sponsored activity, during the time they are on School Board premises for school attendance and authorized activities.”

It is the responsibility of the parent/guardian to ensure that their child behaves appropriately and demonstrates respect for all school staff, especially teachers, at all times.

It is the responsibility of school personnel to be aware of the specifics of the Code of Student Conduct and to apply to them appropriately. It is the school's responsibility to convey information about individual school policies and procedures to students and parents/guardians via a school planner or other appropriate means.

The School Board and personnel appointed at the district level are responsible for ensuring that the Code of Student Conduct and the consequences for the identified infractions are legal and fair. The Board is also responsible for conveying to the community and parents/guardians that once these conditions are met, the actions taken by the local school will be supported for the good of the school system and the community.

300.1: ELECTRONIC DEVICES

Students may possess an electronic device at schools, however according to [Florida law and Board Policy](#), students may not use such devices during instructional time except when expressly directed by a teacher solely for educational purposes. Teachers shall designate an area for such devices during instructional time. The School Board is not responsible for preventing theft, loss, damage, or vandalism to electronic devices or technology brought onto its property or vehicles or used during or for a school-related purpose. Refer to Sarasota County [School Board Policy 5.38](#). The regulation of electronic devices and other technology shall at all times be consistent with state and federal law.

- Students may not use any electronic devices, including headphones or other technology during school, on school vehicles, including school buses or property or at a school-sponsored activity to access and/or view websites that are otherwise blocked to students at the school. Students may never use School Board devices or technology to do so, regardless of location. In special circumstances, with permission from a supervising school district employee, a student may use an electronic device or technology for communication.
- Students may not possess any electronic device or other technology during testing, unless explicit authorization is given, regardless of the student's location during the testing or who owns the device, even if the device or technology is turned off or the student does not use it. Violation of this rule will result in the student's test being invalidated.
- If an electronic device or technology disrupts a class or students, for example by ringing, flashing, or vibrating, the student possessing the device or technology will be subject to disciplinary action. Any student who uses an electronic device or technology in a manner that materially disrupts classwork or involves substantial disorder or the invasion of the rights of others, including by threatening, bullying, harassing, discriminating against, or intimidating another student or district staff member through email, social network posting, or other electronic messages or technology, also will be subject to disciplinary action as determined by the Code of Student Conduct.
- Personally owned electronic devices and technology used in violation of school rules will be confiscated and returned to the student's parent or guardian.

300.2: TECHNOLOGY USE

Technology and electronic devices are an integral part of a student's educational experience and must be used in a way that is consistent with the goals of Sarasota County Schools' acceptable use policy and [Social Media guidelines](#) consistent with state and federal law, regardless of who owns the device or technology. Technology includes, but is not limited to computers, smartphone, smart devices, other electronic devices, software, e-mail, the Internet, other network resources, cell phones and cameras. Violations will result in serious disciplinary actions, which may include an arrest if any criminal law is broken. Examples of such violations would be computer hacking or trespass, harassment, or threats via computer or computer fraud.

300.3: DISCRIMINATION

Students have a RIGHT to:

- Attend school in an environment where all students and adults are treated equally, without regard to race, color, religion, sex, national origin, age, disability, marital status, genetic information, sexual orientation, gender identity, or gender expression.

- Report occurrences of discrimination, harassment, bullying, hostility, or retaliation based on membership in a protected classification as described above, to appropriate school personnel.

Please refer to the Human Resources web page for more information regarding the reporting of discrimination or harassment at: <https://www.sarasotacountyschools.net/o/scs/page/hotlines>

300.4: TITLE IX PROCESS

[School board policy 2.71](#) states the following: “The US Department of Education’s Office for Civil Rights enforces, among other statutes Title IX of the Education Amendments of 1972. Title IX protects people from discrimination based on sex in education programs or activities that receive Federal financial assistance.”

The Title IX Coordinator is the person designated by the Superintendent to coordinate compliance with the Title IX and the District’s equity policies. There are times that Code of Student conduct offenses will require a Title IX consultation with the school’s Title IX Coordinator. When this occurs, there may be a short-term delay in the disciplinary process as the Title IX Officer investigates. When a delay occurs, the parent or guardian will be notified of the reasons for the delay.

300.5: FLORIDA STATUTE 553.865: SAFETY IN PRIVATE SPACES ACT

In accordance with [F.S. 553.865](#), male and female students will be provided restrooms and changing facilities for their exclusive use, respective to their sex, at schools and school facilities.

“Sex” means “the classification of a person as either female or male based on the organization of the body of such person for a specific reproductive role, as indicated by the person’s sex chromosomes, naturally occurring sex hormones, and internal and external genitalia present at birth,” in accordance with [F.S. 553.865](#).

Based on this legislation, a person may only enter a restroom or changing facility designated for the opposite sex under the following circumstances:

1. To accompany a person of the opposite sex for the purpose of assisting or chaperoning a child under the age of 12, an elderly person, or a person with a disability or developmental disability, as defined by Florida law.
2. For law enforcement or governmental regulatory purposes.
3. For the purpose of rendering emergency medical assistance or to intervene in any other emergency situation where the health or safety of another person is at risk.
4. For custodial, maintenance, or inspection purposes, provided that the restroom or changing facility is not in use; or
5. If the appropriate designated restroom or changing facility is out of order or under repair and the restroom or changing facility designated for the opposite sex contains no person of the opposite sex.

Any student who willfully enters for a purpose other than those listed in (1) through (5), above, a restroom or changing facility designated for the opposite sex on the premises of a school or school facility that has a unisex restroom and/or unisex changing facility and refuses to depart when asked to do so by any school district instructional personnel, administrative personnel, or school resource officer shall be subject to disciplinary action consistent with this Code.

The rules contained in this section do not apply to an individual who meets the exceptions provided by [F.S. 553.865\(15\)](#).

300.6: PLEDGE OF ALLEGIANCE

[F.S. 1003.44 \(1\)](#) requires that the Pledge of Allegiance must be recited at the beginning of the day in every Florida public elementary, middle and high school. The law also grants students the right not to participate in reciting the pledge. Upon written request by a parent/guardian, a student must be excused from reciting the pledge, including being excused from standing and placing the right hand over the student's heart.

300.7: STUDENT SEARCH AND SEIZURE: [F.S. 1006.09 \(9\)](#)

School principal or principal's designee may search students reasonably suspected of being in possession of contraband or other prohibited items while on school district property or wherever students are under the official supervision of district employees, such as on field trips, at extracurricular activities, or while being transported to and from such places either by school bus, by approved drivers, or by other means of conveyance.

- **School principal or principal's designee may conduct** a search of a student, a student's possessions, a student's locker, or any other storage area on school property without a warrant when school personnel have reasonable suspicion that illegal, prohibited or harmful items or substances, or stolen property, maybe concealed on a student's person or in a storage area.
- **School principal or principal's designee** to attempt to obtain consent from a student to

search for illegal, prohibited, harmful items or substances, or stolen property, but may proceed with a search without a student's consent, upon reasonable suspicion of a prohibited or illegally possessed substance or object.

- **School principal or principal's designee** to search a student's backpack, purse, or wallet, upon reasonable suspicion, if the student refuses to reveal the contents inside.
- **School principal or principal's designee** of the district and are subject to periodic searches without prior notice and without reasonable suspicion of a violation of the law.
- **School principal or principal's designee** is a privilege that may be extended to students. All students desiring to park a vehicle on school district property shall be required to sign a consent form allowing the vehicle, upon reasonable suspicion, to be searched by the principal or his or her designee. Refusal of a student to cooperate in the request to search his or her vehicle shall result in the revocation of the student's parking permit for two (2) years from the date of refusal.

* This subsection does not prohibit the use of metal detectors or specially trained animals during a search for illegally possessed substances or objects.

300.8: STUDENT DETENTION, SEARCH, AND SEIZURE

An instructional or administrative staff member is authorized to temporarily detain a student when there is reasonable suspicion that the student has violated a school board policy. This authority permits appropriate search procedures by administrative staff or designees, including searches of vehicles parked on school campuses, and supervised canine searches of student lockers, vehicles, purses, shoes, socks, pockets, backpacks, or other storage areas, the use of metal detectors and the seizure of suspect items. See [School Board Policy 5.31](#).

300.9: BUS RIDING PRIVILEGES

In Sarasota County, we seek to provide a safe and effective transportation program for students that ride the school bus. Students, parents, and guardians must be aware that the school bus program is a privilege. As such student misconduct can result in the revoking of the bus privilege.

Per state statute 1006.09: "The principal or the principal's designee may suspend any student transported to or from school at public expense from the privilege of riding on a school bus for violation of district school board transportation policies, which shall include a policy regarding behavior at school bus stops, and the principal or the principal's designee shall give notice in writing to the students parent and to the district school superintendent within 24 hours."

Please be aware that when a student's behavior on the school bus meets any of the following criteria, they may be suspended from the school bus in accordance with [F.S. 1006.09 \(9\)](#)

- Disobedient
- Disrespectful

- Violent
- Abusive
- Uncontrollable
- Disruptive

Students with Disabilities or Students with Section 504 plans may be suspended per district procedures. The removals count toward IDEA's ten-day limit of removals from school if the parent or their designee is unable to bring the student to school during a bus suspension, regardless of the student having specialized transportation as a related service or not. Schools are required to adhere to procedures for Manifestation Determination Hearings should a student exceed ten days of combined out of school suspension, in school suspension without services provided, and bus suspension resulting in a student's absence.

It is the Responsibility of transported students to do the following:

- a. To occupy the seat assigned by the driver and remain seated while the bus is in motion.
- b. To observe classroom, conduct except for ordinary conversation.
- c. To obey the driver and attendant and report to the principal or designee when told to do so.

- e. To warn the driver of approaching danger, if there is reason to believe the driver is not aware of the danger.
- f. To be at the place designated, both morning and evening, ready to board the bus ten (10) minutes before it is scheduled to arrive. The bus cannot wait for those who are tardy.
- g. Always stay off the roadway while waiting for a bus and conduct themselves in an orderly manner.
- h. To wait until the bus has come to a complete stop before attempting to get on or off.
- i. To leave the bus only with the consent of the driver.
- j. To cross the highway, if necessary, after leaving the bus in the following manner:
 1. To wait at the side of the road within sight and hearing of the driver and wait for proper signal for crossing.
 2. To look both to the right and left and proceed across the highway in front of the bus upon signal from the driver.
- k. To always keep all body parts inside the bus windows.
- l. To be silent when approaching or crossing railroad tracks.
- m. To leave the bus by the emergency door only when told to do so by the driver, or in case of an emergency that is life threatening.
- n. To refrain from eating, drinking, or smoking while on the bus.
- o. To board and leave the bus at their regular stop, unless by permission of transportation director or designee.
- p. To refrain from the use of profanity or abusive language on the bus.

- r. Animals, snakes, frogs, glass containers, sharp objects, balls, bats, skateboards, cutting instruments, fireworks, and any other similar items are not allowed on the bus.
- s. Any electronic devices such as cell phones, iPod, etc., should be put away and not be turned on when riding the bus. (At driver’s discretion)
- t. Fragrances such as perfumes, deodorants, etc., should be put away and not sprayed on the bus.

It is essential that parents and guardians review bus safety procedures below as adopted from state statute and State Board of Education Rule, [6A-3.0121, F.A.C.:](#)

1. Students may ride only in their assigned school buses and get off only at assigned bus stops, except when the district has approved alternative buses or arrangements.

2. Parents, guardians and students are aware of and follow the district’s adopted code of student conduct while the students are at school bus stops and to provide necessary supervision during times when the bus is not present.

Finally, please note that all school buses are equipped with video cameras for the purpose of ensuring the health, welfare and safety of all staff, students, and drivers.

300.10: SCHOOL BUS SUSPENSION

The privilege of riding the bus may be denied. In such cases, transportation shall be provided by the parent or guardian.

300.11: DISCIPLINE POLICIES AND PROCEDURES

The Code of Student Conduct outlines Sarasota County Schools implementation of school board policies and statutes to guide the best practices regarding student behavior. Student behaviors that violate the Code of Student Conduct are on a scale from a minor infraction (level 1) to a severe Zero Tolerance infraction (Level 4). All student behaviors are aligned with the district’s discipline policy, from least severe (Level 1) to most severe (Level 4). The range of consequences for each offense appears in the Behaviors and Consequences Chart following this section.

Infractions of the Code of Student Conduct are grouped into four levels based on severity of offenses:

- Minor Level I
- Intermediate Level II
- Major Level III
- Zero Tolerance Level IV

The Code of Student Conduct is set up to ensure that Principals and the Principal designee are consistent with administering discipline and interventions for infractions of the Code of Student Conduct.

Consequences and interventions are included on a chart at the end of this document titled Disciplinary Actions/Interventions Matrix. The chart should be read from left to right indicating the infraction that has been committed and the number of occurrences increasing the consequence and intervention. Parent/Guardian contact, either written or verbal, should be made each time a student is disciplined by an administrator. If necessary, students involved in a fight or dispute will be separated during their In School Suspension to avoid further conflict, an example of how this could be implemented would require one student to serve their number of days and the other student will serve his/her suspension after the first student is released.

When an infraction of the Code of Student Conduct occurs, the student's explanation shall be heard by the Principal/Designee before determining the classification of the infraction and potential consequences. The Principal or Designee will review each case, including all documentation provided by staff and other witnesses, individually before assigning consequences. F.S. [1003.31](#) , [1003.32](#) , [1006.07](#), [1006.09](#) describe the responsibilities of the school Principal and other designated staff.

Classroom teachers will address general classroom disruptions or minor offenses by taking appropriate steps to document in-class interventions and/or disciplinary actions on a Notice of Concern or Event and Discipline Report that is sent to the administrator for processing. It is expected that appropriate school staff (i.e., teachers, school counselors, administrators) will always make personal contact with parents/guardians when misbehavior occurs and hold parent/teacher conferences to address the student's need. A close collaboration between the school and home should result in frequent communication and intervention implementation to help correct the misbehavior.

300.12: REPEATED INFRACTIONS

Repeated infractions of the Code of Student Conduct in school and/or on the school bus will be considered willful disobedience and/or open defiance of authority which could potentially result in suspension or expulsion from school and/or the school bus for the remainder of the school year or a specific period of time. In addition, depending on the severity of the repeated infractions, such patterns of behavior may warrant consultation with the discipline office for enrollment at the district's alternative education center for middle and high school students.

The Multi-Tiered System of Support (MTSS) should be used as a framework to intervene when students demonstrate repeated behaviors or a pattern of behaviors. The process of planning for implementation and progress monitoring interventions occurs through each schools' Schoolwide Support Team (SWST). If students are unresponsive to interventions through MTSS the team should consider if parental consent for a Functional Behavior Assessment (FBA) is warranted. An FBA is a comprehensive and individualized, problem- solving process that addresses challenging behavior. It incorporates a variety of techniques and strategies to gather information as a means of understanding the specific reasons for the student's problem behavior and how a student's behavior relates to or is affected by his/her environment. An FBA looks beyond the form of the behavior (i.e., what the behavior looks or sounds like), and focuses on identifying what causes and maintains the behavior (i.e., the function). This type of assessment leads the

observer beyond the behavior observed to the student's underlying motivation (escape, avoid, or gain something). During review of the FBA, the school team will determine if a student demonstrates a need for a Behavior Intervention Plan (BIP).

For those that demonstrate a need, the BIP is an important component to address their social emotional needs. For students with disabilities, the BIP is part of the IEP process, all individuals working with students who have a BIP must always implement it with fidelity. Administrators overseeing discipline should review the implementation of the BIP prior to making disciplinary decisions. Should a student with a BIP continue to engage in behaviors that are inconsistent with the Code of Conduct the IEP team will reconvene to review and adjust the BIP and/or IEP accordingly.

If the student demonstrating repeated behaviors or a pattern of behaviors already has a BIP, the team should review and update the BIP and/or IEP as needed.

Violations of the Code of Student Conduct occurring within the same level as delineated by the Discipline/Intervention Infraction Matrix, sections 300.35-300.38, whether on school premises, during school-endorsed events, or aboard school transportation, shall be classified as willful misconduct.

There are times that students repeatedly commit infractions that are of a similar nature. When this occurs, progressive discipline will apply (see the section, Formal Disciplinary Actions and Procedures, for an explanation of progressive discipline). The chart below indicates how infractions, by level will be grouped for progressive discipline purposes. Please note that the student infraction will be escalated to the next occurrence on the Disciplinary Actions/Interventions Matrix. The grouped infractions are as follows:

Level 1 Infractions:

- Attendance Incidents- Z 1.1 & Z 1.2
- Rule Violation Incidents- Z 1.3- Z 1.6

300.13 CLASSROOM MANAGED BEHAVIORS:

Teachers are expected to manage classroom behaviors as a part of their classroom management system. The following chart is a list of potential classroom behaviors, strategies, and consequences that teachers may implement within their classrooms without formal discipline of the student. If classroom managed behaviors persist to the detriment of the learning environment, the offense may escalate to a formal notice of concern or event and discipline report with appropriate consequences. Strategies and potential consequences should be consistent with the school-wide positive behavior support system which is consistent in all settings. Classroom managed strategies provide opportunity for teachers to have teachable moments and as a result minimize interruptions to the learning environment. Please reference the “Classroom Managed Behaviors and Strategies” chart below.

Classroom Managed Behaviors and Strategies

Examples of Classroom Managed Behaviors

- Tardiness
- Inappropriate language
- Throwing objects
- Calling out/ interruption
- Out of assigned seat
- Horseplay
- Arguing/talking back
- Non-compliance
- Refusal to engage in classwork
- Off task
- Disobey classroom rules

Examples of Classroom Managed Strategies

- Re-teach expectations
- Model the behavior
- Proximity control
- Change seating assignment
- Redirection
- Reinforce positive classroom behavior
- Environmental restoration
- Referral to school counselor/behavior specialist
- Provide choices
- Parent contact

Please note the following:

All possible classroom behaviors and strategies have not been included on this chart. Omission of a behavior or strategy does not preclude it as a classroom managed behavior or strategy.

Classroom teachers should refer to school support staff as needed.

If the behavior continues in occurrence or escalates, please complete a Notice of Concern or Event and Discipline Report for support staff and/or administration intervention.

300.14: SESIR

School Environment Safety Incident Reporting (SESIR) is outlined in the Florida Statute and State Board of Education Rule [6A-1.0017, F.A.C.](#) “The purpose of this rule is to set forth the requirements school districts and charter schools must use to report disruptive or criminal incidents to the Florida Department of Education so that the data can, in turn, be used in required state and federal reports. SESIR data is also used to design and evaluate interventions to provide a safe learning environment. SESIR is not a law enforcement reporting system.” Sarasota County School administrators, resource officers, threat assessment teams, and staff are trained on reporting procedures and will remain in compliance with state statute. Discipline and school-based interventions are at the discretion of school administrators.

300.15: CONDUCT OUTSIDE OF SCHOOL

The District’s Bullying harassment Policies [2.70](#) and [2.71](#) “applies to all members of the district community and to all forms of discrimination and harassment committed by or against a member of the district community when the conduct occurs:

- (1) On school property, or
- (2) During or in relation to a school-sponsored program or activity regardless of location

The district may also address discrimination and harassment that occurs outside of the school-sponsored program or activity but has continuing adverse effects within those programs or activities, including by providing supportive measures to address the safety of students and employees.”

All students are expected to follow the rules of this Handbook and Code of Student Conduct on their way to and from school. The principal or designee may take administrative action if students’ misconduct in route to or from school has a harmful effect on the health, safety or welfare of themselves, other students and/or the school.

300.16: BULLYING, HARASSMENT AND STUDENT DATING VIOLENCE & ABUSE

Bullying is defined by SESIR Reporting guidelines: Systematically and chronically inflicting physical hurt or psychological distress on one or more students or employees. Bullying may include, but is not limited to, repetitive instances of teasing, social exclusion, threats, intimidation, stalking, physical violence, theft, harassment, public or private humiliation, or destruction of property. The regulation of bullying and harassment shall be consistent with state and federal law. Online conduct or speech that materially disrupts classwork or involves substantial disorder or invasion of the rights of others is prohibited.

Cyberstalking as defined in [F.S. §784.048 \(1\) \(d\)](#) means to engage in a course of conduct to communicate, or to cause to be communicated, words, images, or language by or through the use of electronic mail or electronic communication directed at a specific person, causing substantial emotional distress to that person and serving no legitimate purpose.

“Cyberstalk” means:

Incidents of bullying or harassment shall be reported to the school's administration as per School Board Policies [2.70](#), [2.71](#), [2.71a](#), [2.72](#). The principal or designee will investigate all reports of bullying that have been deemed a violation of the policy pursuant to the steps outlined in [2.70](#), [2.71](#), [2.71a](#), [2.72](#).

A maximum of ten (15) school days shall be the limit from the initial filing of incidents to the completion of the investigative procedural steps. The highest level of confidentiality possible will be upheld regarding the submission of a complaint or a report of bullying and/or harassment and the investigative procedures that follow. Consequences and appropriate remedial action for students who commit acts of bullying or harassment may range from positive behavioral interventions up to and including suspension or expulsion, as outlined in the Code of Student Conduct. School staff will put in place appropriate measures, such as the safety plan to ensure safe re-entry into the school setting after a substantiated bullying or harassment event. Safety plans include monitoring of interventions that are put in place to prevent further acts of bullying or harassment. The Sarasota School District Bullying and Harassment [School Board policy 2.70](#) will be publicized at the beginning of each school year for staff, parents and students.

All students are expected to follow the rules of this Handbook and Code of Student Conduct on their way to and from school. These include, but are not limited to, marijuana, hallucinogens, inhalants, or any substance which requires a physician's prescription or authorization, or any substance, synthetic or otherwise, designed to create a sense of euphoria or intoxication, or any substance represented by or that mimics or imitates an illegal or controlled substance, such as "designer drugs." No student, while on school property,

300.21: GANGS

It is essential that schools be safe and orderly to provide environments that foster learning and high academic achievement. To promote an orderly learning environment in our schools while preparing students for later success in the world of work, the School Board of Sarasota County has taken a proactive approach and has established procedural guidelines concerning youth gang activity. These guidelines are to address problems associated with youth gangs through proactive education and

disciplinary action, when necessary. Any student who is associated with a gang and/or participates in gang activity as outlined by this policy is subject to immediate disciplinary action. This includes, but is not limited to, gang dress, gang symbols/signs and gang tattoos. If a parent is concerned about a student's possible involvement in gang activity, he or she should contact a school counselor, school administrator or School Resource Officer.

300.22: COMPENSATION FOR ACTS OF VANDALISM:

A student who willfully damages school property, a school bus, or bus equipment will be subject to discipline under the Code of Student Conduct. In addition to discipline measures, the parents or legal guardian of a student who causes damage to the property of Sarasota County Schools shall reimburse the district for restitution or for replacement of any damaged school property in the full amount.

300.23: DISCIPLINARY ACTIONS

In order to maintain safe and effective learning conditions, it may be necessary to impose disciplinary consequences for behaviors that disrupt the learning environment or pose a danger to students or school personnel. The following briefly describes the disciplinary actions recognized by the school district and the school board.

300.24: REMOVAL FROM CLASS

If a student causes a disruption to the educational environment, the student may be removed from the classroom.

300.25: IN-SCHOOL RESTRICTION (ALTERNATIVE EDUCATION ENVIRONMENT)

This program provides for on-campus restriction in lieu of out-of-school suspension at the discretion of the administrator. However, due to problems of supervision or lack of facilities at some schools, in-school restrictions may not be offered at all schools. Appropriate behavior and attention to schoolwork are essential for this option to be available.

Students with Disabilities must be afforded the opportunity to continue to appropriately participate in the general curriculum and continue to receive the services specified on their IEP while serving In-School Restriction. If these services are not provided the In-School Restriction removals will count toward IDEA's ten-day limit. Schools are required to adhere to procedures for Manifestation Determination Hearings should a student exceed ten days of combined out of school suspension, In-School Restriction without out the previously outlined services provided, and bus suspension resulting in a student's absence.

300.26: RESTRICTION OF PRIVILEGES

Any student involved in a violation of the Code of Student Conduct may have the student's privileges restricted. The student may be denied participation in extracurricular activities. The student may be assigned to report frequently to a specified staff member who will assist in monitoring the adjustment to

specific situations pertaining to the school and the student during this probationary period.

300.27: DISRUPTIVE STUDENTS – STAFF INTERVENTION

The use of reasonable physical force must be consistent with federal, state, and local laws, school district rules and [school board policy 5.343](#). A staff member shall have the authority, while on duty, to come into physical contact with a student or students to the degree necessary for the purpose of establishing or maintaining control of students, including to reasonably protect himself/herself, other people, or property. Such physical contact shall not be construed to be corporal punishment. At all times by School Board personnel, any force used must be reasonable, no more than necessary, and proportionate to the threat posed. Such force shall last no longer than reasonably necessary. School Board Policy 5.343 defines “imminent risk of serious injury” as the threat posed by dangerous behavior that may cause serious physical harm to self or others.

[School Board Policy 5.343](#) defines “Physical restraint” as the use of manual restraint techniques that involve significant physical force applied by a teacher or other staff member to restrict the movement of all or part of a student’s body. The term does not include briefly holding a student in order to calm or comfort the student or physically escorting a student to a safe location.

- Authorized school personnel may use physical restraint only when all positive behavior interventions and supports have been exhausted.
- Physical restraint may be used only when there is an imminent risk of serious injury and must be discontinued as soon as the threat posed by the dangerous behavior has dissipated.
- Physical restraint may be used only to protect the safety of students, school personnel, or others and may not be used for student discipline or to correct student noncompliance.
- Physical restraint techniques may not be used to inflict pain to induce compliance.

The degree of force applied during physical restraint must be only that degree of force necessary to protect the student or others from imminent risk of serious injury.

300.28: REPORTING OF CRIMES AND/OR DISRUPTIVE BEHAVIOR

It is important that all students and parents/guardians understand that certain criminal and/or disruptive behavior must, by school board policy, be reported to appropriate law enforcement authorities. The following types of incidents will be reported: alcohol use, arson, battery, bullying, breaking/entering, drugs, kidnapping, larceny/theft, possession or use of weapons or explosive devices, property damage, vandalism, robbery, sex offenses, sexual battery, sexual harassment or any other serious incident or disruption of school operation. Any student formally charged with a felony by the proper prosecuting authority shall be subjected to suspension in accordance with Florida Statutes for a period that may exceed 10 (ten) days, as determined by the superintendent. If the student is adjudicated delinquent or guilty of a felony, the school board has the authority to expel the student.

300.29: PROCEDURES FOR OFF-CAMPUS FELONY CASES

[F.S. 1006.09 \(2\)](#) allows the superintendent to suspend a student from school for a period longer than 10 (ten) days when a student has been formally charged with a felony committed on property other than public school property. For districts to utilize this section of the statutes, a student must have been formally charged, and in an administrative hearing, the school/district must show that the incident will have an adverse effect on the educational program, discipline or welfare of the school in which the student is enrolled. If the student is adjudicated guilty or delinquent, the school board may expel the student.

When students are arrested, school administrators are notified immediately of the charges and violations. [F.S. 985.101 \(b\)](#) requires that upon receiving that notification, schools must notify the student's teachers of record of the arrest for an off-campus felony arrest.

When the student is charged with off-campus felony offenses, schools must conduct an Off-Campus Felony Hearing following district procedures. Schools must notify and invite parents and guardians of the hearing. The outcome of the hearing may result in Alternative Placement or Expulsion.

Finally, when a student commits a misdemeanor offense involving a weapon on property other than the property of the school board, the school/district will review the incident and determine appropriate safety measures to maintain a safe and orderly school environment.

300.30: DUE PROCESS FOR SUSPENSION AND EXPULSION

When disciplinary actions reach the level of suspension or expulsion of a student, the following procedural steps are implemented to protect the interests of the student. The principal or designee will use and follow the steps in the Due Process Checklist, including identifying whether a student is receiving Exceptional Student Education, 504 plan, or English for Speakers of Other Languages (ESOL) services. Prior to suspension, a recommendation for expulsion or administrative assignment to an alternative school program, the student shall be provided due process and have the right to:

- Be advised of the charges/accusations.
- Be provided an opportunity to respond to the charges.
- Be provided an opportunity to submit to the administrator a list of names of other individuals who might have witnessed the incident.
- Be advised why they are being suspended or recommended for expulsion.

During a period of suspension that constitutes a change of placement and/or expulsion, students with disabilities are afforded the right to receive educational services that allow the student to appropriately progress in the general curriculum and appropriately advance toward achieving the goals in the student's IEP. [State Board of Education Rule: 6A-6.03312, FAC-Discipline Procedures for Students with Disabilities.](#)

300.31: SUSPENSION

When suspension from school is being considered for a student, certain procedures are required by law. A school principal or designee may suspend a student from school for up to 10 (ten) school days per incident for persistent disobedience and/or gross misconduct. The principal or designee takes this action when he or she has exhausted other disciplinary strategies or when alternatives have at least been considered but have been rejected as inappropriate in each situation. Conferences to resolve the problem are scheduled with the parent/guardian, student, and appropriate administrator.

As a result of [F.S. 1006.09](#), when a suspension is implemented, the parent/guardian will be informed of each suspension and the reasons for the suspension in writing within 24 hours by United States mail or via other electronic communication agreed to by the parent/guardian. The parent/guardian will be informed through written notification, that he or she has a right to a hearing with the principal. The principal's decision to suspend a student is final. A student along with his/her parent/guardian/caretaker may request an appeal regarding the suspension. The request for a suspension appeal must be made to the principal or designee by phone, email or in person. All requests for an appeal of a suspension should be made to the office of the principal or designee within 24 hours (excluding Saturday, Sunday, and holidays) of the suspension. During this appeal, the student may be directed by the principal or designee to remain out of school until a final decision is made regarding the appeal. If the appeal is granted, the principal or designee will make arrangements to administratively excuse the absence and assist the student with any schoolwork missed during the appeal. The principal or designee has the authority and responsibility of final review of any such appeal.

Students will be remanded to the custody of their parent/guardian with specific coursework assignments to be completed. This disciplinary action excludes a student from entering or remaining on any school campus for any purpose, and he or she is restricted from participation in school-related functions. This includes all athletic and extracurricular activities on any Sarasota County School District campus.

For students with an Individual Education Plan (IEP)/504 plan, federal law requires that IEP/504 plan teams conduct a Manifestation Determination Review (MDR) for all students who have committed violations of the Code of Conduct which have resulted in more than ten out of school suspension days in one school year or when the school is recommending a Settlement Agreement to an Alternative Educational Setting. The ten days of removal as outlined by IDEA includes cumulative days of out of school suspension, In-School Restriction without the previously outlined services provided, and bus suspension resulting in a student's absence. At the MDR, the IEP/504 plan team must determine whether the student's misconduct was caused by or had a direct and substantial relationship to the child's disability, or if the misbehavior was the direct result of the LEA's failure to implement the IEP. If it is determined that the misconduct was a manifestation of the student's disability, the student will return to the student's current placement and staff will convene a meeting to review and revise the Behavior Intervention Plan, if applicable, or to obtain consent for evaluation of a Functional Behavior Assessment (FBA). The team must also consider if adjustments to the student's

IEP are warranted. Consistent with the Individuals with Disabilities Education Act (IDEA) behaviors related to drugs, weapons, or serious bodily injury may result in immediate removal to an Alternative Educational Setting.

If the team determines the behavior is not a manifestation of the student's disability, they may be disciplined consistent with students without disabilities in accordance with the Code of Conduct.

As noted in section 300.12, if a student demonstrates a pattern of behavior or repeated behaviors the school team should review the BIP and/or IEP and adjust as appropriate.

300.32: EXPULSION

If a student expelled in another district seeks to enroll, the student may be admitted by the district school board, with or without the recommendation of the district school superintendent, and the student may be placed in an appropriate educational program and referred to mental health services identified by the school district pursuant to [F.S. 1012.584 \(4\)](#) when appropriate, at the direction of the district school board.

A school principal may request that the superintendent recommends to the school board that a student be expelled. This is the most serious disciplinary step available. It denies the student attendance in all programs of Sarasota County Schools. An expulsion may be recommended for the remainder of the academic year, the summer session and one additional academic year.

For students with an Individual Education Plan (IEP)/504 plan, federal law requires that IEP/504 plan teams conduct a Manifestation Determination Review (MDR) for all students who have committed violations of the Code of Conduct which have resulted in more than ten out of school suspension days in in one school year or when the school is recommending a Settlement Agreement to an Alternative Educational Setting. At the MDR, the IEP/504 plan team must determine whether the student's misconduct was caused by or had a direct and substantial relationship to the child's disability, or if the misbehavior was the direct result of the LEA's failure to implement the IEP. If it is determined that the misconduct was a manifestation of the student's disability, the student will return to the student's current placement and staff will convene a meeting to review and revise the Behavior Intervention Plan, if applicable, or to obtain consent for evaluation of a Functional Behavior Assessment (FBA). The team must also consider if adjustments to the student's IEP are warranted. Consistent with the Individuals with Disabilities Education Act (IDEA) behaviors related to drugs, weapons, or serious bodily injury may result in immediate removal to an Alternative Educational Setting.

If the team determines the behavior is not a manifestation of the student's disability, they may be disciplined consistent with students without disabilities in accordance with the Code of Conduct.

As noted in section 300.12, if a student demonstrates a pattern of behavior or repeated behaviors the school team should review the BIP and/or IEP and adjust as appropriate.

[State Board of Education Rule: 6A-6.03312, FAC-Discipline Procedures for Students with Disabilities.](#)

Students assigned to second chance schools must be evaluated by the district school board's child study team before placement in a second chance school. The study team shall ensure that students are not eligible for placement in a program for emotionally disturbed children.

For ESE students only, an IEP Team would convene to determine any possible changes for the student, including a possible placement change. If it is determined that the conduct was not caused by the student's disabilities, the student could be considered for a recommendation for expulsion with services.

If grounds for expulsion exist, the superintendent or designee will notify the student and parents in writing of the charges against the student in a language the student and parents can understand. On the day a student with a disability (IEP/504 plan) is recommended for expulsion, the administrator must contact and provide to parent Notice of Procedural Safeguards. The parent or guardian will also receive the notice of suspension and Settlement Agreement which will include the following information:

- Notice of the extended suspension period
- Notice of the student's right to a hearing pursuant to [F.S. 120.569](#) and [F.S. 120.57](#)
- A brief statement of the accusation against the student
- Grounds for the expulsion
- The student's and parent's/legal guardian's procedural rights in connection with the hearing, including the right to counsel or other representation should they request a hearing
- Period of expulsion
- Notice of the consequences of failure to request or attend the hearing, which constitutes a waiver of further rights in the matter

The notification may also include a proposed Settlement Agreement.

300.33: FORMAL EXPULSION HEARING (FORMALLY REQUESTED BY PARENT OR GUARDIAN THROUGH THE DISTRICT DISCIPLINE OFFICE)

The hearing will be held before a hearing officer appointed by the district. The hearing will be held as soon as possible after written notification of charges to the parent. The parent/legal guardian and principal will be notified of the time and date of the hearing.

- Expulsion hearings are governed by [F.S.120.569](#) Although the school district is exempt from [Florida Statute 286.011](#), which requires reasonable notice of a hearing, the student's parent(s) or legal guardian(s) must be given notice of the provisions of [F.S. 286.011](#) and may elect to have the hearing held in compliance with that statute. Testimony will be presented under oath. Hearsay is admissible, although it may not be the sole basis for the recommendation. The student may be represented by counsel and will be

afforded the opportunity to cross-examine witnesses supporting the charge, to call witnesses on the student's behalf and to introduce evidence. A sufficient record of the proceedings will be kept so a transcript can be prepared in the event that either party requests one.

- The hearing officer will issue a recommended order within seven (7) days following the hearing. The Sarasota County School Board will consider the recommendation and exemptions, if any, at its next regularly scheduled meeting and will approve or disapprove of the recommendation.
- The hearing officer will make factual findings of the allegations of misconduct against the student. If the findings are substantiated, the hearing officer may recommend an additional year of expulsion. A hearing officer does not decide whether a student is entitled to attend an alternative school.
- The district must offer educational services to ESE students during the period of expulsion. Expulsion of students with disabilities is defined as removal from one program to another, not exclusion from public education. Services may not be provided through a regular school assignment.
